Bizimle düşünün tasarlarken, üretirken ve yaşarken...

29 yılın en kısa tanımı 'kalite' olduğunda isminiz büyük bir değerle anılır; 'güven'. Yıllar içinde güven sadakate dönüşür. Ama cazibe ve yenilikçilikle tekdüzelikten uzak bir sadakat; yüzü güneşe dönük, her güne yenilikle varacağından emin bir sadakat. Ve yıllar içinde sizinle birlikte düşünenlerin sayısındaki artış markanıza yansır, bunun da kısa bir adı vardır; 'gurur'.

Hayatı anlamak için, tek bir kök üzerinde daima taze çiçeklerin olabileceğine inanmak gerekir. Biz buna inandık. Bu yüzden üretimlerimiz hep yenilikçi oldu ve hayata dokundu. Daha konforlu ve estetik yaşam alanlarını, tüm detaylarıyla hak edenlerin ve üretenlerin hayatına.

Başarıyı bizimle birlikte düşünenlerin hayatına.
Saygıyla...

Think with us while designing, producing and living...

When the best definition of 29 years is 'quality', your name is mentioned with great esteem; that is 'reliability'. Over the years, that reliability turns into loyalty. But loyalty removed from monotony, rather attractive and innovative; facing the sun, sure about starting the day with lots of novelties. The increase in the number of people who think with you reflects on your brand and this has a simple name: 'pride'.

In order to understand life, you need to believe that there can always be young flowers grown from one root. We have always believed in this. That's why our products have always been innovational and touched the life. The life of the ones who deserve and create more comfortable and aesthetic living spaces with every detail adhered to.

*The life of the ones who consider success together with us.
Sincerely...*

AGT Deck, en yeni WPC ahşap teknolojiyle üretilir. Ahşap ve polipropilenin bileşiminden oluşan kompozit, uzun ömürlü, çevreci ve geri dönüşümlü bir yer döşemesidir. İstenilen boyda, tik, gri, bej, venge ve afromosia olmak üzere toplam 5 renkte üretilmekte, boyanabilmekte ve cilalanabilmektedir. Havuz kenarı, teras, plaj, iskele, bahçe ve yürüyüş yolları, veranda gibi alanlara dekoratif bir görüntü kazandırır, aynı zamanda kaymayan bir özelliğe sahiptir. Modüler yapısıyla kolaylıkla monte ve demonte edilebilir. Doğa şartlarına, suya, neme ve darbelere dayanıklı olup ahşap ürünlerin tersine rutin bakıma gereksinim duymamaktadır.

AGT Deck is manufactured with the latest WPC wood technology. The composite is made up of a mixture of wood and polypropylene, and is a long-lasting, eco-friendly and recyclable flooring option. It can be manufactured in the desired size, in total of five colors: teak, gray, beige, wenge and afromosia can be painted and polished. It adds a decorative look to areas such as pool sides, terraces, beaches, piers, gardens, walking paths and verandas, and prevents slips. It can be easily installed and uninstalled due to its modular structure. It is resistant to natural conditions, water, humidity, and impact, and does not need regular maintenance, unlike wooden products.
