

# 1,000,000 cycles

*Durability in accordance with  
EN 1935:2002*

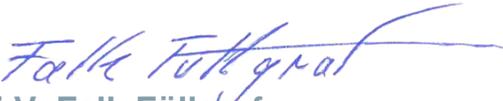

The product Hahn Rollenband NG, "3-pcs." was tested and classified in external institutes according to EN 1935:2002 and equipped with the EC Certificate of Conformity (CE) No. 1309-CPD-0056.

The longevity of these door hinges and their bearing assembly was examined in internal tests with regard to their durability to withstand at least 1,000,000 cycles beyond the requirements of EN 1935:2002.

The door weight was selected in this case in accordance with the certified hinge class 14.

The product did not exhibit any noticeable problems such as damage, deformation or cracks after the continuous operational test. Durability was achieved to the full extent upon conclusion of the test.
